SAFE
KIDNEY-LIVER CURE

The Leading Scientists of To-day
agree that most diseases are caused by
disordered kidneys or liver. The discovery
of Warner's Safe Kidney and Liver Cure
marks an era in the treatment of these dis-
eases. It is a POSITIVE remedy for all
diseases that cause pain in the lower part
of the body, for torpid liver, headache, jaun-
dice, dyspepsia, gravel, fever, ague, malarial
fever, and all difficulties of the kidneys, liver,
and urinary organs. It is an excellent and
safe remedy for females during pregnancy. It
will control menstruation, and is invaluable
for leucorrhea or falling of the womb. As a
blood purifier it is unequalled, as it cures the
organs that MAKE the blood.

This remedy, which has done such wonders,
is put up in the LARGEST SIZE BOTTLES
of any medicine on the market, and is sold
by druggists and dealers at \$1.25 per bot-
tle. For diabetes, inquire for WARNER'S
SAFE DIABETES CURE. It is a POSITIVE
remedy.

**REPUBLICAN
STATE CONVENTION**

At the called meeting of the Republican
State Central Committee of Nevada, held
at Virginia, March 14, 1882, it was resolved
that a State Convention should be held at
Reno, Washoe County, Sept. 4, 1882.

And that the apportionment of delegates from
the several counties of the State to said Con-
vention should be as follows:

Churchill.....1
Esmeralda.....1
Eureka.....1
Humboldt.....1
Lander.....1
Lincoln.....1
Mason.....1
Nye.....1
Pershing.....1
Storey.....1
Washoe.....1

Total.....17

The following resolutions were also
adopted:

Resolved, That the delegates to the State
Convention be elected at Primaries, and that
the various County Central Com. mittees be
requested to call said Primaries on Saturday,
August 19, 1882.

Resolved, That if a vacancy should occur in
any delegation after the Primaries are held,
said vacancy shall be filled by the remaining
delegates.

Resolved, That any county may elect dele-
gates to the State Convention at a County
convention of the members of which shall
have been elected at regular Primaries, held
on or before the said 19th day of August,
1882.

The following test was adopted and recom-
mended for use at the Primaries: "Are you a
Republican, and will you support the nomi-
nees of the Republican State Convention?"

ISAAC L. REQUA, Chairman.
ALF. DOWEN, Secretary.

Attention Republicans.

WHAT WE FEARED.

A Washington dispatch says that the Treasury Department begins to perceive that it has a grave problem on its cards in securing the proper enforcement of the law restricting Chinese immigration. The point to which attention is now being chiefly directed is that of the extreme northwest frontier of Washington Territory, as it impinges on British Columbia, and by-and-by will extend over the whole frontier line to be affected by the construction of the Canadian Pacific. At present the point of vantage for the dealers and managers of Chinese labor is where Vancouver Island touches the waters of Puget Sound by the straits of Juan Del Fuca and the shores adjacent thereto. There are, it is said, about 14,000 Chinese in the colony of British Columbia. Six thousand of these are employed in the construction of the Canadian Pacific Railroad. The white population does not exceed 25,000. The balance are Indians and Chinese.

The frontier now to be watched against the illegal interest of this alien population is not very extended, but the work of devising plans and executing them will require activity and sagacity. The only purpose there is in the encouragement and transshipment of Chinese labor is to make profit for labor compradores, and to give Chinese laborers a chance. We are outside barbarians to be despised and to be cheated whenever it is possible to do so. The Chinese are practically locusts. They "swarm" and then leave. Chinese railroad navies build no villages, make no farms, create no towns, require no stores. When their work is done the road is bare. If built with white labor the converse is true. We recite these points only to point out that Chinese labor is alien and foreign. This labor migration is conducted wholly through the British colony of Hong Kong. It is evident that labor dealers propose to make Vancouver Island their Hong Kong of reception. Take Mercator's map of the world and it will be seen that Hong Kong, Vancouver Island and San Francisco make three points of an irregular triangle. Chinese labor is to be driven from the lower point and proposed to assault its base from above by turns in the flank from Vancouver Island through Washington and the other northwest territory. We shall have something to say as to the design of the labor dealers on Mexico and their flanking in that direction.

EDITORIAL NOTES.

It is reported that a number of the Insane Asylum contractors are trying to put up a legislative ticket in the interest of a relief bill. We should think such a course unnecessary. Any delegation of good men going from here, would be perfectly willing to do the fair thing by the contractors, and it is not right that the Insane Asylum should overshadow all the other interests of the county.

W. W. Bishop, of Eureka, yesterday informed us that he had found quite a pressure throughout the State to have him for a Congressional candidate. He said that if it seemed to be his duty to do so he would run, but the Convention must give him a nomination without any wirepulling.

Prof. Butts, the writing teacher, is in Quincy, and the *National* says the Reno and Truckee papers misrepresented him last Summer. If the *National* trusted him for that notice it is a dead loss.

Theo. Winters proposes a series of Spring meetings at San Francisco, Sacramento and Salt Lake as early as April, thus giving the horses a chance to work in the East if desired. Reno ought to be in on that.

Columns of advertisements in Spanish appear in New Orleans newspapers. This means that the city is getting trade from Mexico.

A wet cloth hung in an open window will cool the air in a room materially.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

Casidy on His Feet.

WASHINGTON, August 7.

Representative Cassidy of Nevada took occasion in a speech, Saturday, on a bill to provide for the erection of a public building in Carson to give Congress some information as to the resources of Nevada, and to reply to some of the strictures on that State and its insignificant voting population. He said Nevada had been admitted to the Union to aid in suppressing the rebellion and to give the Union party the aid of two additional members in the Senate, as well as to exemplify the indissolubleness of the Union of States. Since the admission the population has increased from 39,000 in 1864, to 62,000 in 1880, under adverse circumstances, including a severe blow to the principal industry of the State by the demonetization of silver in 1873. The general government, he said, had done practically nothing for the State, which had neither river nor harbors, and which had not received a dollar for public improvements, except the United States Branch Mint, which is run at a profit to the government. In nineteen years the State had paid into the Federal Treasury five millions in internal revenue and had contributed a million more in payment for lands, valuable to the Government until operations on them had made them valuable. Hardly a dollar of this money had found its way back to the State. Against this sort of treatment he protested. He showed by figures that more than 40 members of the House represented districts containing as small a voting population as the one he represented. After going at some length into a discussion of the river question, as affecting the interests of Nevada, he spoke of the needs of the State, the principal of which was, he said, more water, and made a vigorous argument in favor of the sinking of an artesian well, a work which he wanted carried on by the Government through the Geological Survey.

The Winter's Work.

WASHINGTON, August 7.

It is generally expected Congress will adjourn this evening. The House will leave behind a calendar of some 70 pages. On the House calendar proper remain 125 measures, 230 propositions upon the calendar of the Committee of the Whole. Thirty-three of them are public building bills. More than 400 private relief bills practically find a grave in the private calendar on the Speaker's table. About 200 Senate bills, most of them of a private character, 2,383 bills and joint resolutions have been introduced in the Senate, of which 466 passed that body. At the hour of final adjournment, besides a great number of measures not yet reported from Senate committees, there will remain upon the Senate calendar about 190 Senate bills and joint resolutions, all of which will have to take their chances at the next session. Aside from the regular annual appropriation bills, about 170 bills and joint resolutions of a public nature have been passed by both Houses this session and become laws.

Teller Didn't Tell Them To.

WASHINGTON, August 7.

Secretary Teller emphatically denies the report that he advised the passage of the River and Harbor bill over the President's veto. He says he happened to be in the Senate chamber shortly before the vote was taken, but so far from saying anything in favor of the vetoed bill, he incidentally said the veto ought to be sustained. The Secretary further remarks that he voted against every river and harbor bill that came before the Senate while he was a member of that body; that he made speeches against four of them, and that as a matter of fact, he regarded the last bill as much worse than any of its predecessors.

Waited Too Long.

JERSEY CITY, August 7.

The checkers and callers of the Pennsylvania Railroad, who struck with the freight handlers, unanimously decided to return to work. The officers of the company stated it was very doubtful if the strikers be taken back as the present checkers and callers are giving satisfaction.

Southern Impetuosity.

MACON, Ga., August 7.

At a colored camp meeting at Easton a Deputy Marshal shot a fleeing prisoner named Jake Torray, killing him. This infuriated the mob, who ran the deputy in a house, where an innocent white man, J. Howard, was shot and beaten to death, they thinking he was the deputy.

Don't Like the Southern Pacific.

WASHINGTON, August 7.

A local newspaper says: The Texas Pacific never did a single stroke toward earning the grant of land 80 miles wide. It transferred to the Southern Pacific "rights" it never possessed, and it has violated every equity, robbed settlers of rights granted by Congress, evaded State taxation, corrupted Courts and caused the death of innocent persons in collisions that arose

over the Mussel shoals. The Southern Pacific has been built and paid for. Why should half a dozen men, who received thirty-five millions acres of land and bonds to the amount of thirty millions dollars for the construction of the Central Pacific, besides a grant in southern California of five millions and five hundred thousand acres, of which over one million acres have been patented, receive any more favor at the hands of this nation. A good deal more than one half of their several grants of lands and bonds have gone to swell the personal fortunes of the original promoters. For years this syndicate sedulously cultivated the idea of a possible and separate Pacific Republic and all the Company's extension schemes until within the past three or four years looked to the knitting of Mexico with San Francisco.

Testing the Telegraph.

DARTON, Ohio, August 7.

A temporary restraining order was granted the Mutual Union Telegraph Company against the Western Union last evening. The Western Union refused to receive from and forward for the Mutual Union dispatches received by that company for points not on the Mutual Union lines, on the ground that the Mutual Union has no right to receive such messages. It is understood this suit will be brought to a test case as to whether a company can refuse to accept such messages from another company.

A Savage Stroke.

MONTPELIER, Vt., August 7.

As Philander Young, his son Charles and two grandsons, with Charles Corey, were getting in hay in Worcester, Vermont, lightning struck the load and killed Morton Young, aged 14, prostrated the other four, killed one horse, and burned the load of hay and wagon. Philander recovered consciousness in season to rescue the body of Morton and the other three persons from the flames. Charles Young was badly hurt, but may recover.

After the Farmers.

POUGHKEEPSIE, N. Y., Aug. 7.

The army worm is making heavy ravages in the vicinity of Pine Plains, and farmers are compelled to harvest their oats before they are fully ripe. It is feared the worm will attack the corn crop. The extreme drought is proving disastrous to the corn and potatoes of Dutchess county.

Why Not Hang Him?

BRADFORD, Pa., August 7.

Wm. Hale attempted to ravish a six-year-old daughter of Henshaw Aiken last evening at Tarport. He was caught by citizens, tarred and feathered, and driven out of town.

A Sick Governor.

NEWPORT, R. I., August 7.

Governor Warren passed a comfortable day and was able to take nourishment. His friends are extremely anxious and desirous of keeping his condition a secret.

FOREIGN.

EGYPT'S TROUBLE.

Saturday's Fight—The English withdrew, but not till they wanted to.

ALEXANDRIA, August 7.

General Allinson reports: "I came into action with the enemy, who were strong in force, in a group of palm trees. They took a second position half a mile in the rear upon the east bank of the canal, among high crops and houses, and behind the irregular bank of the canal. From this position the enemy were driven with great loss. I pushed on as rapidly as possible till at the point where the railway approaches nearest to the Mahmoudieh canal, and then opened a most terrific fire upon the enemy. Two nine-pounders were dragged on to the embankment and came into action against the enemy's guns, and a 40-pounder was fired over our heads, against the point where the enemy's forces were beginning to appear. I now threw forward two companies to the car-house near canal and followed up by throwing four companies still more to my left upon the bank of and across the canal, thus attaining the position I wished, and forming a diagonal line across both canal and railway. The enemy retired slowly before us, five of their seven-pounders silenced. I determined to withdraw. This movement was carried out with perfect regularity and precision. The troops fell back by alternate companies with the regularity of a field day. Every attempt by the enemy to advance was crushed by the beautiful precision of the forty-pounder and the steady firing of the nine-pounders. The losses of the enemy appear to have been very great. They were so dispirited that, contrary to the usual practice of Asiatics, they made no attempt to follow up our withdrawal. As a reconnaissance the success of our move was all I could wish. I regret to state our loss was somewhat heavy. Lieutenant Vise was one of the most promising officers I ever met. Our total loss was four killed and twenty-nine wounded.

CONSTANTINOPLE, August 7.

At the sitting of the Conference Saturday the British ambassador accepted the principle of collective protection of the Suez canal. The French ambassador was forced to reserve his opinion, owing to the political crisis in Paris. Other delegates, including the Turkish Representatives, accepted

the collective protection with the modification that there should only be provisional supervision of the canal. Lord Dufferin again insisted upon the proclamation of Arabi Pasha as a rebel. He points out rumors in Egypt that the Sultan protected Arabi Pasha, and should send troops to drive out the English. He further called attention to the fact that the Porte had not yet given a written statement of adherence to the identical note, he said England might regard the delay as an actual refusal and act accordingly. The English delegates promised a written reply at the next conference.

ALEXANDRIA, August 7.

Saturday's engagement is the subject of general comment here. Nothing has apparently been gained to compensate for the heavy loss in killed and wounded. An armed train started to-day for Mabahla Junction to discover if the railroad had again been cut.

ALEXANDRIA, August 7.

The vicinity of Ramleh was quiet yesterday. No movement of the enemy visible. General Allison visited the wounded and found all but two doing well. He addressed the marines, praising their gallant conduct under heavy fire. Lieutenant Vise and the three others were buried in the afternoon with military honors in the English cemetery outside the Rosetta Gates. General Graham, in the steamer Cygnus, will reconnoitre Aboukir forts to-day. The troopship Euphrates has arrived here.

CONSTANTINOPLE, August 7.

Certain Marplots have been particularly active lately. The bulk of the garrison is jealous of the petted Albanians and guards. Native Christians are uneasy. There was a groundless panic Wednesday among them in Stamboul.

Constantinople feeling has been caused by the Porte on account of hoisting the English flag on public buildings when the British occupied Suva. The Porte has been assured the raising of the flag had no significance. The flag displaced was that of the Consulate and was hoisted in conjunction with the Egyptian flag. This explanation is not considered satisfactory.

The Crisis at Paris.

PARIS, August 7.

The new ministry is not yet formed. President Grevy will confer with Senator Duclerc again this evening with a view to his undertaking the task.

WESTERN.

A Fearful Mistake.

PORTLAND, Or., August 7.

Last evening as George Harold, Deputy County Assessor, was crossing to Portland by the Albion ferry, he unwittingly pushed the carriage containing his only child, aged 9 months, into the river. He was near sighted and supposed the boat had reached the landing. Harold plunged in, but failed to save the child and was himself rescued with great difficulty.

TELEGRAPHIC BRIEVITIES.

—Franc Balk, the Milwaukee brewer, is dead.

—Rear Admiral David Stockton McDougal died in San Francisco today of Bright's disease.

—Durban news has been received that the Boers, with native contingent, were defeated on the 28th of July at Montasi with heavy loss.

—As the result of a row over some poker chips, James Meeks fatally shot Albert Daily and blew out his own brains yesterday in Indianapolis.

—According to telegrams last night from every part of Ireland the constabulary are determined to have their grievances remedied or else they will resign.

—A bridge on the Peoria, Decatur and Evansville railroad near Greenup, Illinois, gave away yesterday and let a train into the river, killing one man and injuring two.

—The House passed the bill for a court of inquiry on the loss of the Jennette; also a resolution for a commission upon American ship building and ship-owners' interests.

—Two years ago the appropriations for the General Government were \$190,000,000. Last year they ran up to \$216,694,888, and this year they have been swelled up to the sum of \$293,555,480.

—New York merchants are agitated over the tea supply. It costs them more and sells for less than for a long time. There are about 22,000,000 pounds in the country and 18,000,000 on the way. Merchants think the danger of delay by the Suez Canal is over, but they have to pay war rates of insurance.

Bear Source.

Three reliable bear hunters started from Alturas last Friday week with the avowed intention of slaughtering a grizzly or two before they returned. They returned on Tuesday, and report that there are no grizzlies in the mountains; they made a thorough search, but could not find so much as a track.

THE CANNY SCOTS.

The winners took the \$70 prize, the Emmets the \$50, and the Washingtons the \$30 one.

D. R. McMillan cast the heavy hammer 80 feet and one inch, and the light one 98 feet and 4 inches. D. A. McMillan pitched the heavy stone 85 feet and 10 inches and the light stone 44 feet 6 inches. Robert Foster won the members' race of 100 yards and William Richards the sack race. D. A. McMillan made a standing jump of 9 feet 6 1/4 inches. J. R. Cameron won the high jumping. Hardy and Vair the three-legged race. D. O. McMillan, who seems to be an athlete, made the best running jump, 17 feet 7 inches. William Veitch took the prize for vaulting with the pole and D. McKenzie for tossing the caber. McDonald won the 400-yard race and Miss Biggs, of Reno, the ladies' race. T. Twaddle was ahead in the boys' race and Nellie Porter in the girls'. In the members' race, over 50 yards, Kenneth McPherson led and Mrs. Menzies the old ladies' race. T. Sisk took the old man's race and won the cane. The tug of war, between 12 married men and 12 bachelors of the Club, for a case of mountain dew, was participated in by 15 members of the Miners' Union and an equal number of members of the Mechanics' Union. Captains, D. H. Fraser and William Somerville. It was a very even thing and a terribly tough struggle.

An Unworthy Character.

A man named Black recently applied to Seth Clifford, of the Pyramid House, for help, saying he and his wife were destitute. Clifford and some of his friends generously threw in \$50 as a donation to them. Last Thursday Black demanded what money his wife had left after paying board and other bills. She refused him and he beat her and gave her a black eye. Mr. Bailey stopped him later when he undertook to abuse her. He is said to be able to work and not worthy of charity. The wife is said to be a good woman and also to be in a condition which makes her husband's brutality doubly cruel.

Bear in Nevada.

The stage men tell the Silver State that there are bear on the road to Idaho. At Buffalo station a few nights ago, Jack Lathan, better known as "Hoodlum Jack," was almost frightened to death by a bear. He was sleeping in the bars when bruin came around and scared the dog so badly that he whined piteously. Jack opened the door, looked out and saw the bear, and instead of going back and closing the door, he ran out and got upon a hay stack, where he stayed until the bear went away. A year or two ago it was reported that bears had been frequently seen on the Humboldt near Battle Mountain.

The Watch Dog of the Treasury.

The announcement is made in another column that Dan B. Boyd will be a candidate for the office of County Treasurer before the Republican County Convention. In a long public career in this county, which has been his home from boyhood, no man has ever accused Mr. Boyd of being other than a conscientious and honest man. He has held office frequently and never made a promise he did not keep. Under his handling the public money counts out square to a cent.

Stand in a Little.

Mr. Mitchell, of the Reno laundry, is working energetically to establish himself here in opposition to the Chinese. He says his support is only so-so. It should be a consideration with folks who give out their washing that every one is opposed to the Chinamen, and all should be willing to make some little sacrifice and bear a small burden to support white men in preference to them. Mr. Mitchell seems to be a worthy young man, and with plenty of work could do it nearly as cheap as the Chinese laundrymen.

A Young Vaquero.

The Modoc Independent says: Last Sunday a little boy 8 years of age, son of W. Page, who resides in the lower end of Goose Lake valley, was driving cattle, when the horse he was riding stepped in a badger hole, and fell, throwing the little fellow, and breaking his right arm above the elbow. He was taken to Cedarville, where Dr. Patterson set the broken arm, and he is now getting along nicely.

The First Quarter.

The Nevada & Oregon Railroad has reached the 25-mile post. A new engine has been ordered and cars for a passenger train. Freight cars are also coming. More iron is expected the last of the week. The laborers were paid off on Saturday for July. The rolls were not due till August 15th.

The Gentleman's Newspaper.

The Breeder and Sportsman is a handsome paper and is well filled with excellent matter. Mr. Simpson's articles are very able and interesting.

SHOWERS OF STARS.

The Annual Display of Meteors Set for This Week.

On the nights of the 9th, 10th and 11th, there will be a display of Celestial fireworks that never fail in their exhibition. The earth then plunges through the domains of an erratic member of the system known as the August meteor zone. It is mysteriously associated with the second comet of 1863, or has been gradually formed from its substance. The meteors are now distributed through every portion of the vast ring, though somewhat unequally. Therefore, every year, when about the 10th of August the earth crosses this zone, there is a shower of meteors more or less abundant. Sometimes the showers are very brilliant. At ordinary times, an observer may be reasonably sure of counting several hundreds on the nights mentioned. These meteors are usually yellow, and leave behind trails of vapor that often last several seconds. The meteoric downfall may be easily explained. The earth travels with a velocity of eighteen miles a second, plunges into a mass of cometary vapors, whose velocity is increased by her attraction to thirty miles a second. The meteors impinge upon the atmosphere with this tremendous velocity, become vaporized by the concussion, and leave a train of luminous vapor behind them when they fall. This ring of meteors is calculated to be nearly eleven thousand million miles in diameter, and four million miles in breadth. The fiery tears of St. Lawrence is the name given to the August meteors by the poetry and superstition of the past, because they fall on the day made memorable by the martyrdom of the famous saint.

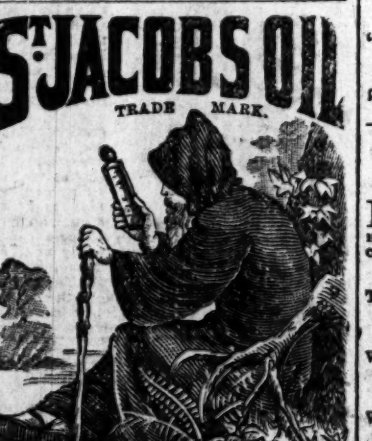

A RAKER.

The Congressional Idea of a Statesman's Duty.

Says the Washington correspondent of the Courier-Journal: "There is only one State in the United States, and only one Representative in Congress that has no interest in the River and Harbor bill," said Representative Cassidy to a correspondent. "The State," he continued, "is Nevada, and I am the Representative. We haven't got a river, or a creek even in the entire State of Nevada. I do not like the idea of our State getting left in this combination affair, and hunted up and down the mountains, but could not find a bit of water we wanted to improve. It is a cold day when Nevada gets left, but we got the go-by in this bill. Still there will be some money left after the bill is passed, and I'll make a big pull to get some of it for a public building at Carson city, which we need very much. This haul on the Treasury," continued Mr. Cassidy, "reminds me of an occurrence in the early days of California. The Legislature had been in session the allotted time, and the motion to adjourn was put, a member rose to a 'question of privilege.' 'What is it?' asked the Speaker. 'Mr. Speaker,' answered the member, 'I ask of you a question of privilege; now that all the bills are drained an' hauls have got through, how much money is left in the Treasury?' The Speaker made a little calculation and answered: 'About \$100,000.' 'Then,' said the member, 'I move to rake her.' In the raking in this case I want to get money enough to put up one public building in Carson city."

Two Small Runs.

E. C. Leadbetter's horse took a turn Saturday evening and smashed up the delivery wagon. A double team hitched to one of the Masonic building posts at Schooling's store, tore it out and ran away Saturday evening about 5 o'clock.
